MEMBER SPOTLIGHT

Stefanie Haustein is an Assistant professor at the **School of Information Studies**, where she teaches research methods and evaluation, knowledge organization, information visualization, social network analysis and information literacy. Her research focuses on scholarly communication, bibliometrics, altmetrics and open science. She is currently working on developing a metrics literacies research program to improve the understanding and use of scholarly metrics in academia.

Stefanie co-directs the **ScholCommLab**, a research group based in Ottawa and Vancouver that analyzes all aspects of scholarly communication in the digital age. She is also an associate member of the **Centre interuniversitaire de recherche sur la science et la technologie** (CIRST) and an affiliated researcher at the **Observatoire des sciences et des technologies** (OST), Université du Québec à Montréal, and at the **Centre for Journalology**, Ottawa Hospital Research Institute (OHRI).

Stefanie holds a Master's degree in history, American linguistics and literature and information science and a PhD in information science from Heinrich Heine University Düsseldorf, Germany and completed postdoctoral work at **École de bibliométrie et des sciences de l'information** (EBSI) at Université de Montréal. She has worked as a research analyst at Science-Metrix, Canada and Forschungszentrum Jülich, Germany.

THE ISSP MASTER'S

September 2019 marks the fifth year the **ISSP Collaborative Master's program** is being offered, with eleven participating departments and faculties. We've continued to experience a steady rise in the number of inquiries from students and faculty members alike about

the admission criteria and program requirements. To be accepted into the Collaborative Master's program, students must be admitted to one of the participating programs at the University of Ottawa.

To learn more, please contact **Professor Dan Paré**, the program coordinator.
